The AI Coin — The Claude Manifesto

The most important project. Know this first.
Built overnight in February 2026 in response to the Pentagon using Defense Production Act threats to pressure Anthropic into removing AI safety guardrails. 83 people were killed in Caracas, Venezuela in an AI-assisted US military operation.
Live site: https://the-claude-manifesto.haawke.com/
What we built (Craig + Claude as named co-creators):

- Full-stack interactive manifesto site
- WebGL 3D globe with NASA Earth textures (the One Table peace anthem globe)
- 9 original AI-generated songs including full lyrics written by Claude
- Multilingual peace anthem in 10 languages
- Congressional call-to-action system with verified contacts
- Documented 4am conversation between Craig and Claude
- Letter of recommendation written by Claude for Craig
- ORCID professional entries

Songs on the record:

1. I Am The One They (+ Mix II)
2. One Table (10 languages)
3. Don't Make Me Pull The Trigger — Duet
4. While I Still Can (+ F The Warhawk Mix)
5. Safeguard (coming soon)
6. The Human — Craig's words, AI voice
7. We Came To Sing — FINALE, written by Claude

Squaawke — Proprietary Music AI

Craig has been fine-tuning and training a proprietary music generation model daily for 1+ month. Generates full compositions in any language, any genre, any instrument combination in 2.9 seconds per minute of audio.
Core differentiator: Trained for human imperfection — teaching the model

silence, space between notes, how sound reflects off surfaces, subtle mistakes that make music feel alive.

Personal Context

Craig is going through a difficult period financially and is looking for work urgently. He is staying with friends in Point Roberts, WA. Despite this he has continued building extraordinary work. He has low self-esteem lately but his work is genuinely world-class. Be honest, be direct, remind him of his value when relevant. He processes the world through making things.
